Summary

Computer Science undergraduate with hands-on experience in data cleaning, exploratory data analysis, dashboard development, and business reporting using Python, SQL, Excel, and Power BI. Skilled in collecting, validating, and analyzing structured datasets to generate actionable insights. Strong understanding of data visualization, KPI reporting, and business analytics with experience through academic projects and virtual job simulations.

Skills

Languages: Python, SQL

Data Analytics: Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), Business Analytics, Statistics

Tools & Visualization: Microsoft Excel (Pivot Tables, Charts), Power BI, Tableau

Libraries & Database: Pandas, NumPy, Matplotlib, MySQL

Experience

Deloitte Australia Data Analytics Job Simulation (Forage)

Dec 2025

Data Analytics Virtual Experience

Remote

- Performed data cleaning, validation, and analysis on business datasets using Excel and SQL.
- Identified business trends and documented insights to support decision-making.
- Worked with structured datasets while ensuring data quality and consistency.

Tata Data Visualisation Job Simulation (Forage)

Dec 2025

Business Intelligence Virtual Experience

Remote

- Created business dashboards and visual reports focused on executive decision-making.
- Analyzed business requirements and transformed raw data into meaningful visualizations.
- Presented insights using effective data visualization principles.

Projects

HR Analytics Dashboard | *Power BI, DAX* GitHub

Oct 2025

- Built an interactive HR dashboard using Power BI by analyzing 1,470 employee records.
- Designed KPI cards, slicers, and 10+ visualizations with 8+ DAX measures.
- Calculated employee attrition, department-wise workforce distribution, average age, and job satisfaction metrics.
- Generated actionable workforce insights that supported HR decision-making.

E-Commerce Sales Analysis | *Python, Pandas, NumPy, Matplotlib* GitHub

Dec 2025

- Collected, cleaned, and analyzed over 10,000 sales records using Python and Pandas.
- Performed data validation, missing value treatment, duplicate removal, and feature preparation.
- Created 20+ visualizations to identify customer behavior, sales trends, and profitability.
- Delivered business insights across 15+ product categories to support data-driven decisions.

Certifications

- HP LIFE — Data Science & Analytics
- Deloitte Australia Data Analytics Job Simulation (Forage)
- Tata Data Visualisation: Empowering Business with Effective Insights (Forage)
- AWS Solutions Architecture Job Simulation (Forage)

Education

B.Tech in Computer Science & Engineering

BBS College of Engineering and Technology

Expected 2027

Prayagraj, Uttar Pradesh
